# ArcGIS VERSION 10.0 PRODUCT LIST

**Use this list of Products and their associated Part Numbers to complete the Enterprise License Order Form.**
**Please note:** **This order form has been modified for ArcGIS V10 and part and package numbers may have changed.**

## DESKTOP GIS

---

ArcGIS Concurrent Licenses:

*ArcGIS concurrent licenses **require a keyless license manager** which can operate on a single server and serve multiple seats in a heterogeneous network. Ideally, the license manager is installed on a network server or can operate on one PC, serving it and other seats. A provisioning file will be sent with your order for either concurrent or single use licenses to authorize the ordered number of seats/licenses.   **MAC addresses and host name are no longer required** when ordering concurrent licensing.*
